Pan-Roasted Halibut R -- --

PREPARATION

Wild-caught halibut, carefully selected for its firm texture and delicate flavor, is pan-roasted to achieve a golden crust while maintaining a tender, flaky interior. The fish is finished with a citrus beurre blanc, expertly balanced with fresh lemon and white wine, creating a silky sauce that complements the natural sweetness of the halibut. Accompanied by saffron-infused potatoes and shaved fennel, each element is composed to highlight the pristine quality of the fish.
